

JOHN CEDRICK LIBRADILLA

IT Support Specialist • Network Technician • Full-Stack Web Developer
Cebu, Philippines | +63 956 075 7817 | johncedricklibradilla@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Versatile BS Information Technology student at the University of Cebu with hands-on experience in IT support, networking, and full-stack web development. Skilled in diagnosing hardware and software issues, configuring networks, and building responsive web applications using React, Node.js, and MySQL. Combines strong technical fundamentals with a problem-solving mindset to deliver reliable solutions in diverse IT environments.

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript, React, Next.js, Node.js, Express.js, Tailwind CSS, REST APIs

Database: MySQL, MongoDB, Sequelize ORM

Networking & IT Support: TCP/IP, LAN/WAN, Cisco IOS, Cisco Packet Tracer, Windows Administration, Hardware & Software Troubleshooting, Printer Setup

Tools & Design: Git, GitHub, VS Code, Postman, Figma, Adobe Photoshop, Canva

EXPERIENCE

Software Developer (Capstone Project)

University of Cebu | 2025 – Present

- Currently developing PasaHERO, an AI-assisted multimodal navigation platform for Cebu City commuters.
- Built a rule-based route recommendation engine using fare analytics, walking distance, and transfer analysis.
- Developed responsive React interfaces and integrated Mapbox GL JS, geolocation APIs, Node.js, Express.js, and MySQL.
- Collaborated with team members throughout planning, development, testing, and evaluation.

Freelance Web Developer, IT Support & Graphic Designer

Self-Employed | 2023 – Present

- Designed and developed responsive websites and web applications for businesses and organizations.
- Provided IT support including Windows installation, hardware diagnostics, software troubleshooting, and basic network configuration.
- Created branding materials, event posters, tarpaulins, apparel graphics, and other print-ready marketing assets.
- Managed multiple client projects while maintaining clear communication and meeting deadlines.

Student Volunteer

University of Cebu – CCS CARES | 2024 – Present

- Assisted in community extension programs promoting digital literacy.
- Conducted basic computer literacy training using Microsoft Word and Excel.
- Provided basic computer troubleshooting and IT support during outreach activities.
- Participated in the CLICK Computer Literacy Program at Barangay Hipodromo.

SELECTED PROJECTS

PasaHERO (Ongoing)

AI-assisted multimodal web navigation platform with intelligent route recommendations, fare analytics, and interactive mapping.

Technologies: React • Node.js • Express.js • MySQL • Mapbox GL JS • Tailwind CSS

LTO Reviewer

Interactive web application for Philippine LTO examination preparation with responsive design and instant feedback.

Technologies: Next.js • React • TypeScript • Tailwind CSS

EDUCATION

Bachelor of Science in Information Technology

University of Cebu | Expected Graduation: June 2027

CERTIFICATIONS

Cisco Networking Academy

CCNA: Introduction to Networks | Networking Essentials | Cybersecurity Essentials | Introduction to Cybersecurity |

Introduction to Packet Tracer | NDG Linux Unhatched | Get Connected

AWARDS

3rd Place – General IT Quiz Competition, 11th UC ICT Congress 2025
