

JOHN CEDRICK LIBRADILLA

IT Support Specialist • Network Technician • Web Developer

Cebu, Philippines | johncedricklibradilla@gmail.com | +63 956 075 7817 | [LinkedIn](#) | [GitHub](#) | [Facebook](#)

PROFESSIONAL SUMMARY

BS Information Technology student with hands-on experience in IT support, network administration, and full-stack web development. Experienced in designing and developing responsive web applications, troubleshooting computer systems, configuring network infrastructure, and delivering digital solutions for clients through freelance projects. Passionate about building reliable technology that combines usability, performance, and modern design.

EXPERIENCE

Capstone Developer — University of Cebu 2025 – Present

- Developed an AI-assisted multimodal navigation platform for Cebu City commuters.
- Designed a rule-based recommendation engine using fare analytics, transfer analysis, and landmark accessibility.
- Integrated Mapbox GL JS, geolocation, and responsive user interfaces.
- Created software architecture diagrams, workflows, database models, and technical documentation.

Freelance Technology Consultant — Self-Employed 2023 – Present

- Developed 5+ responsive websites for businesses and organizations.
- Designed branding materials, promotional posters, tarpaulins, apparel graphics, and print-ready marketing assets for organizations, businesses, and community events.
- Provided technical support including Windows installation, troubleshooting, and basic network configuration.
- Managed multiple client projects while maintaining professional communication and meeting project deadlines.

PROJECTS

PasaHERO - Featured Project

Developed an AI-assisted multimodal web navigation platform that helps Cebu City commuters identify optimal jeepney routes using fare analytics, route visualization, and intelligent route recommendations.

React • Node.js • Express.js • MySQL Tailwind CSS • Mapbox GL JS

LTO Reviewer
